CIRCUIT COURT NOT IN SESSION WEDNESDAY

Special Judge H. C. Rice Makes Hit With Fairness and Dispatch of His Ruling

Circuit court adjourned over Wednesday on account of the funeral of Clay Shackelford, brother of Judge W. R. Shackelford, which the bar and officials desired to attend.

Special Judge H. C. Rice presided with dignity and pleased all with his fair and prompt rulings during the trial of the cases that came before him Tuesday.

William Halecomb was given a judgment for \$200 against Simon Muncey. Damages were claimed as a result of an auto collision.

In the suit of Lorne House against Sam Hise over a rental contract, judgment for \$195 was given in favor of Mr. House.

In the case of Claude Williams against William Farmer for damages alleged to have been caused to a horse and buggy by the defendant's automobile, the jury gave a verdict in favor of Farmer.

The suit of Charley Lanier against Will Laxon for causing the death of a fox hound, was continued.

LABOR BOARD HEARING STARTS

Chicago, Oct. 26—President W. G. Lee, of the trainmen's organization, was called to the stand and questioned today in the board's investigation of threatened railroad strike and questioned about the strike order. He told how the strike vote was taken and the walkout ordered. He told the board that he withdrew from the joint meeting of the other unions because their strike order covered questions he did not think were involved.

"I took the position," said Lee "that for once in my life, at least, I wanted to tell the truth to my men about the facts as I saw them. Lee read into the records a circular letter sent his men while they were voting on the strike, in which he pointed out that wages must come down and that four million unemployed men are seeking jobs.

Lee declared the differences between himself and other unions arose when he insisted on "clean statement," pointing out that there was no probability of reopening negotiations with roads, and protesting against using the strike vote as a club, because the Labor Board, and not the roads, had ordered the wage cut.

The hearing got under way with this airing of rail union inner politics. A roll-call disclosed that the railroad chairmen obeyed Stone's instructions and remained away from the hearings.

UNIONS FURNISHED ARMS TO MINERS

Washington, Oct. 26—Officials of the miners' union in the disturbed West Virginia coal fields were charged today by A. E. Hester, former union organizer, with having aided directly in supplying arms to miners engaged in the recent march on Logan in Logan county, and with having encouraged the march. He said he had handled approximately \$4,000 which he had turned over to the miners for purchase of guns. He asserted the Williamson Hardware Company had a standing order to deliver thirty rifles weekly "for a long time," the weapons being turned over directly to mine workers.

American Consul To Mexico Stabbed Twice by Assaultants

Washington, Oct. 26—Advises to the State Department today said Lloyd Burlingham, American consul at Salina Cruz, Mexico, was stabbed twice at the consulate Monday night by unidentified assaultants. The wounds are not serious.

South Dakota Priest Killed

Lead, S. D., Oct. 26—Father Belknap, parish priest, was lured from here today and shot to death.

LLEWELLYN HITS OIL IN JACKSON

Prominent Attorney of McKee An Oil Magnate Now and May Make Race For State Senate

A writer in the Mt. Vernon Signal has some interesting news about the oil strikes being made by Hon. J. R. Llewellyn in Jackson county, Madison's neighbor to the southeast, which will be of interest to many friends of that gentleman here. It says:

A new oil well was recently drilled in on South Fork in Jackson county, the oil was struck at a depth of 490 feet, when the drill went through the cap rock. The oil rose over the top of the drill before it could be gotten out of the hole and is now standing 150 feet high in the well.

This well was drilled by Attorney J. R. Llewellyn, of McKee, on a 200-acre tract of land he owns in the South Fork oil field. This well when it started off pumping at the rate of 100 barrels a day, head on, making a beautiful stream of oil as large as a man's wrist, and it is thought it will make a settled production of not less than 20 to 25 barrels a day.

Mr. Llewellyn came from North Carolina to Rockcastle county in 1898 as a school teacher, taught that fall at Wildie, stayed at Mt. Vernon that winter and studied law under Judge R. G. Williams and was admitted to the bar at the February term of the Rockcastle Circuit Court, 1899. He taught school again that fall in Singleton Valley. After his school was out he married Miss Mildred Jones, of near Wald, one of the teachers of the county, and at once located at McKee, Jackson county, and began the practice of law, becoming one of the leading lawyers of eastern Kentucky.

He is contemplating making the race for the republican nomination for State Senator from this district to succeed the Hon. Clarence Miller, of Irvine.

DODDS

We are having some nice weather for this time of year.

Mrs. J. W. Hamilton and daughter, Florence, of Richmond, were Monday guests of Mrs. Butler. Miss Ida Blanton spent last week with Mrs. Tipton, of Lexington.

There was a pie supper at our school Saturday night. The pies did not sell very well, but everyone seemed to enjoy themselves. Mr. Oscar Andor, wife and children, visited Mr. and Mrs. Fount Winkler Sunday.

Mrs. J. W. Butler and daughter were week end guests of Mrs. Jim Friend, of Estill county.

Miss Della Todd spent Sunday with Jennie Tharp. Mr. and Mrs. Curt Dozier and daughter and Mr. and Mrs. Maurice Wilson and son visited Mr. and Mrs. Charles Anderson, Sunday.

Miss Jennie Tharp will leave for Tennessee soon.

The many friends of Mrs. Horace Wells are delighted to hear of her speedy recovery.

PAINT LICK PUTS UP HARD BATTLE

An eleven from Madison Hs. Normal Hs. Eastern, and one member who does not attend any school meet the Paint Lick team and defeated them on the Normal gridiron Tuesday afternoon by a score of 6 to 0. Joe Berman, of Eastern, carried the ball over the line. Hacker, of Madison, missed the goal. Joe played only a few minutes but long enough to carry the ball within striking distance of the goal and to carry it over. The team that started was mostly Madison Hs. players. But as the game continued many other players went into the game, including Bob Covington, who showed no form for not having any practice. Bob carried the ball for gains several times and did remarkably well as this was their first time that he had donned football togs this season. He went in at the beginning of the second half and lasted till the final whistle blew.

The Dodge Bros. were slated to play the Paint Lick team but the visitors proved to be ones that had played Normal Hs. and Eastern. The boys rather than see them go home without a game, scraped this eleven together. The Dodge Bros. hope to meet the small Paint Lick team in the near future.

Both the High Schools play on foreign fields this week. Madison playing Lancaster there Friday, and Normal Hs. playing Hustonville there Saturday. The following is the line-up that started the game:

Richmond	Paint Lick
J. Allman	W. Davis
H. Stone	Ward

CANDIDATES MUST FILE EXPENSE PAPERS

Frankfort, Oct. 26—Candidates must file their pre-election expense accounts by the evening of Saturday, October 29, it was announced at the office of Fred A. Vaughn, Secretary of State, today. The filing may be made at any time this week.

Post-election expense accounts must be filed within thirty days after the election which occurs November 8, making the final day for filing these accounts December 8.

Secretary Vaughn in commenting on the expense account problem said that his office always had trouble with candidates on his score. "They seem to think all that there is to it is to be elected. They think that when election day is past there is nothing more to be done, and we have to keep after them to get the expense accounts in."

Better Run For Fatter Job

Williamsburg, Ky., Oct. 26—John J. Howe, of Carrollton, commonwealth attorney for the nineteenth judicial district, is being mentioned here as a possible democratic candidate for governor. Another report received here is that he may be a candidate for Attorney General.

Completing Dixie Gaps

Mt. Sterling, Ky., Oct. 26—Early completion of the Dixie Highway between this city and Florence is expected as a result of a reported decision of the State Highway Commission at Frankfort not to undertake any new highway projects until the gaps in present routes are complete. The uncompleted gap extends from Dry Ridge to Florence.

Children Helping Pool

Owenton, Ky., Oct. 26—Children in Owen county are to be used by promoters of the Burley Tobacco Growers' Co-operative Association to get the farmers of the county interested in the plan for co-operative marketing of tobacco. It is announced that prizes will be awarded for the best essay on "Why Father Should Sign the Tobacco Contract." The contest will close on Nov. 5. Five dollars will be given for the best essay and \$2.50 for the next.

Moberly Farm Renting

The rental of S. N. Moberly's farm last week was overlooked because of the difficulty in learning the name of the renter. He was a Mr. Moore from Jessamine county. The place, containing 1,285 acres, was let for the year for \$2,492.50. It is located near Moberly Station. Long Tom Chenault handled the renting in his usual finished style.

COLVIN SAYS LIQUOR CONDITIONS FEARFUL

That the stupendous proportions of the illicit liquor traffic in Kentucky represents the greatest menace ever to the free government of the state, was a declaration of George Colvin, State Superintendent of Public Instruction, in the course of an address to Optimist Club members at the Girls' High School Tuesday when Mr. Colvin appealed for the proposed constitutional amendments to the school system of the state, says the Louisville Times.

Speaking privately after the meeting, Mr. Colvin said liquor conditions in many parts of the state are deplorable. The sympathies of easily half the people in some counties, he said, are with the liquor law violators; in many places the theory is that the poor man is having his innings where heretofore the rich man controlled the liquor interests.

"The condition," he said, "is making cowards of some of our officials. And the cure is not in Frankfort, or in Washington, but it is in the hands of the people all over the state, and above all else, it is in the schools, where the future citizenship can best be trained to respect the law."

BOBTOWN

Mrs. Jim Neely entertained Sunday her daughter, Mrs. Roscoe Whitlock and family, from White Hall, and Mr. and Mrs. Neallons Miracle and family, of Kingston.

Mr. and Mrs. John Lawson and little daughter, Rosella, spent the week-end with Mr. Wm. Lawson in Garrard county.

HARDING TALKS ON RACE QUESTION

In Address Delivered Wednesday At Birmingham's Semi-Centennial Celebration

(By Associated Press) Birmingham, Ala., Oct. 26—The right of the American negro to broader political, economic and educational advantages, based on pride of race, but never on aspiration for social equality, was championed by President Harding here today in plainly worded enunciation of big views on the whole American race problem.

"I would say," said the President, "let the black man vote when fit to vote; prohibit the white man voting when he's unfit to vote. Men of both races may well stand uncompromisingly against every suggestion of social equality. It is not a question of social equality, but a question of recognizing the fundamental, eternal, inescapable difference. Racial amalgamation cannot be. The black man should seek to be and encouraged to be the best possible black man and not the best possible imitation of a white man."

His address was delivered at the semi-centennial celebration of Birmingham's founding.

STORM SWEEPS FLORIDA

Jacksonville, Florida, Oct. 26—A gulf hurricane apparently passed into the Atlantic today after sweeping across Florida peninsula. Wire communications south of here are still severed. Low parts of Tampa are reported under several feet of water. There are no reports of loss of life, however.

LUTHER HADEN DIES WEDNESDAY MORNING

Richmond was again called upon to give up one of her splendid citizens Wednesday morning, when death relieved the suffering of Mr. M. L. Haden, at his home on West Main street. Mr. Haden had been confined to his bed since March and was a most patient sufferer, never being heard to murmur through the many weary weeks of illness. He had been a resident of Richmond a little less than a year, having made his home in the county near Millon.

In his death his family has lost a kind and affectionate husband and father, the community one of its most upright citizens, and the Antioch Christian church one of its pillars, always taking an active part as long as his health would permit.

Surviving him are his wife who was Miss Mary Newby, mother, Mrs. H. W. Haden, two daughters, Mrs. Bertha DeJarnette and Miss Geneva Haden, two brothers, J. M. and William Haden, to which the deepest sympathy of the community is extended.

Funeral services will be held at the grave in Richmond cemetery Thursday afternoon, at 2 o'clock, conducted by his pastor, Rev. C. B. Holder, of Berea. Pallbearers will be Embury Haden, Franklin Millon, Andrew McCord, Karl Haden, Jasper Millon and Cecil Haden.

TOM CADEN'S MOTHER DIES IN LEXINGTON

Tom Caden has the sympathy of his many friends in the loss of his mother, Mrs. J. J. Caden, who died at Lexington about 12:30 o'clock Wednesday morning. Her husband and four children, two sons and two daughters, survive. She was about 50 years of age. The husband is quite ill at a hospital in Lexington, having undergone an operation for blood transfusion this week in an effort to save his life.

Beer Permits Coming Quick

Washington, Oct. 26—Permits will be issued with promptness and dispatch to brewers to manufacture beer under the new treasury regulations, Internal Revenue Commissioner Blair said today.

REAL WORKERS ARE IN THE FRONT RANK

Big Special Vote Ends Nov. 1st—New and Renewal Subscriptions Are Rolling In

Names of new subscribers to the Daily Register are coming in daily. Each candidate and his or her little coterie of active boosters are busily engaged in seeing that every possible subscription is being secured. A regular deluge of new subscriptions is promised for Saturday.

Don't Forget Renewals

And then the renewals are not to be neglected, for these are splendid means of getting votes. As the same number of votes are given for renewals as are allowed on new subscriptions, on Opportunity Coupons, get all the renewals and all of the old subscriptions that you possibly can each day during the remainder of this campaign. No matter how much or how little business you may have on hand be sure and get it to the Daily Register office as often as twice a week, as in this way your special vote can be tabulated and your standing be published twice a week. It may be possible that the amount you have on hand would run your vote up to the highest notch yet reached.

The Real Worker

There is a saying that "you can't keep a real man or woman down." The real workers—those who understand the value of work—are coming fast to the front. It is wise to get in to the front ranks early in the game. Let your friends know that you want an automobile—that you are trying to win it and that you expect their help to the extent of their subscriptions from one to ten years to the Daily Register, then you will get it.

We have to ask to receive; and we have to seek to find, and if we don't ask our friends for their subscriptions and loyal support we won't get them. And if we don't seek subscriptions we won't find them. If you seek them early and late the Daily Register will pay you liberally in prizes and cash commissions and have special men to assist you in every possible way. The great inducement for you to do your best in the race is that you do your best when you know that your best is going to be rewarded.

FORMER RICHMOND GIRL LOSES MATE

A message was received here announcing the death of Mr. Robert Kent, which occurred in Richmond, Va., a few days ago. Mr. Kent married Miss Sadie Williamson, eldest daughter of Prof. C. P. Williamson and Mrs. Williamson, who spent many years here. Prof. Williamson being principal of Madison Female Institute. Mr. Kent was a prominent citizen of Richmond, being cashier and vice president of one of the leading banks, and deacon in the Christian church. Mrs. Kent is fondly remembered by a host of school mates and friends in Richmond who deeply sympathize with her in her bereavement.

Another Good Sale

Long Tom Chenault held another of those good sales of his Tuesday afternoon when he sold John Terry's household and kitchen furniture at his home on Smith-Ballard street. A lot of the goods offered brought more than their original cost, it was said. Mr. Terry was greatly pleased with the result of the good sale.

PREDICTS DEMOCRATIC VICTORY IN GARRARD

There was an unusually large crowd at Lancaster court Monday, but very little business of any kind was transacted. There were less than a dozen cattle on the market and these were of a poor class. They sold around 4 1-2c. Several mule colts brought \$20 to \$31. There was no demand for horses. It was the last court day before the election and a good portion of the day was spent in speculating as to who the lucky winners would be. Democrats are well satisfied with conditions and say they are going to carry the county, while the republicans point with pride to the fact that Garrard won 570 for Harding last November and claim that they will get as good a majority this year. So you "pays your money and takes your choice." The Interior Journal predicts that the democrats will win the county offices and that Joseph E. Robinson, democratic nominee for State Senator, will run ahead of the ticket. Mark what we tell you.—Stanford Interior Journal.

BEREA WOMAN'S CLUB DOING GOOD WORK

The Woman's Club Department of the Louisville Herald Sunday had the following of interest concerning the activities of the splendid organization at Berea:

Grouped together by a common interest in the things that make for cultural and civic development are the members of the Woman's Club at Berea.

Specialized leaders, thru well-selected committees, are developing the several important departments of the club's activity.

Mrs. W. C. Noble heads the educational committee; Mrs. E. L. Dix that of literature; Mrs. R. H. Cowley, health and hygiene; Mrs. John F. Smith, music; Mrs. Benton Fielder, home economics and Mrs. W. J. Baird, civics.

Delightful and instructive programs mark the monthly meetings of the Berea club, presided over by Mrs. W. G. Best, the president. At intervals conferences are held concerning the departmental work. Other prominent women who are officers this year are Mrs. G. E. Porter and Mrs. C. E. Campbell, vice presidents; Mrs. C. B. Holder and Mrs. H. E. Taylor, secretaries, and Mrs. T. J. Osborne, treasurer.

COPIES SUN'S RAYS

Curative Properties Are Duplicated by Artificial Means.

Science Develops Sources of Violet and Ultra-Violet Rays for Treatment of Bodily Ills.

Washington.—The sun, in addition to heating and lighting this planet, sends down its so-called actinic rays, those of the violet and ultra-violet, which have beneficial effects in the treatment of some of our bodily ills. But the sunshine cannot be obtained when and wherever it is needed. For this reason scientists and physicians have been developing artificial sources of violet and ultra-violet rays which are like the sun in therapeutic action and which thus bring to suffering humanity one more simple means to aid in alleviating some of its ills.

"At the present moment, the mercury are in a quartz inclosure appears to be the most promising device for producing ultra-violet rays," announced Dr. W. W. Coblentz, physicist and chief of the radiometry section of the Bureau of Standards at a meeting of the American Electrotherapeutic association here recently.

"For some years Doctor Coblentz has been investigating these lamps in determining how closely they duplicate the beneficial rays from the sun. He has found that sunlight and the radiations from quartz mercury vapor lamps have about the same total intensity of ultra-violet radiations, but the spectral quality of the two sources is entirely different. The quartz mercury lamp contains 15 per cent more ultra-violet radiation and shorter wave length than are found in sunlight as transmitted by our atmosphere.

"But we know that sunlight has therapeutic powers, and hence it would appear that these very short wave lengths, found in the mercury lamp, which approach the X-rays in shortness, are not absolutely essential in producing the curative effects," Doctor Coblentz pointed out. Other investigators have found that shorter waves are responsible for skin irritation and burning.

WONDER OF MEDICAL WORLD

This is Mr. Isaac Lamb, Pine-wood Road, Ash, Surrey, England. Mr. Lamb is the present-day wonder of the medical world, being 102 years old and in full possession of all his faculties, including a perfectly sound set of teeth, with the exception of one, which he recently broke off while trying to crack a nut. In his opinion he owes his good teeth to the chewing of tobacco, of which he now uses three ounces a week. Mr. Lamb is the father of 16 children, and he himself, one of ten.

KILLS HORNETS BY BLASTING

Police Electrician at Flint, Mich., Uses Gasoline and Match—Sidewalk Gone.

Flint, Mich.—A new plan to kill hornets, contrived by Silas Best, electrician of the police department, has been found to work, although Best's method demolished a section of city sidewalk. Best was sent to wipe out a hornets' nest beneath a sidewalk. Securing a gallon of gasoline, the officer poured it into the cavity and lighted a match. Best narrowly escaped injury from particles of sidewalk blown in every direction.

We are going to stick

We wish to announce to the people of Richmond that beginning tomorrow—Thursday, October 27th,—the Model Laundry of Frankfort, Ky., will establish a live agency in Richmond. Arrangements have been made with the company to place one of their laundry trucks at the disposal of their agent, and Mr. Carl Gaines, who is connected with the Model Laundry, will be in charge to see that everything starts off O. K. Patrons who have had work done with the laundry need not be told of the splendid work which they turn out, and it is the intention of this company to secure a large amount of Richmond business and to give ABSOLUTE SATISFACTION. Watch tomorrow's paper for further announcement.

Barkley at Stanford
Hon. Albin W. Barkley, Congressman from the 1st district, will speak in Stanford on Friday, October 28th, at 7:30 p. m. at the court house, on behalf of the democratic party. Hundreds of democrats in Garrard county, who so greatly admire this distinguished Kentucky leader, will go from this county to Stanford on the 28th, to renew their acquaintance and friendship with him and enjoy the great speech that he will make for democracy. —Lancaster Record.

BENJAMIN H. KAUFFMAN,
Reading, Pa.

"There's no doubt in my mind that Taulac saved my wife's life," was the positive statement of Benjamin H. Kauffman, 305 Bingham street, Reading, Pa., popular clothing salesman for the well known firm of Coell & Keck.

"I was almost desperate from worrying over her condition, as she suffered so long without getting relief and I can hardly believe my own eyes now when I see the change in her. Why, she doesn't show her age by twenty years and declares she never remembers feeling better in her life. Her health was failing steadily for a year as a result of catarrh of the stomach, and I have never seen anybody suffer as much from indigestion and nervousness as she did."

"After a five weeks' course of Taulac she was like another person, and I'm firmly convinced that years have been added to her life. It makes me shudder now when I think what the result might have been if she hadn't taken Taulac in time."

Taulac is sold in Richmond by Stockton and Son, and leading druggists.

Miss Mary Elizabeth Lackey, who is teaching in Louisville, was at home for a week end visit to her parents, Mr. and Mrs. John Lackey, near Kingston.

Mrs. Joe Godfrey, of Lexington, and Mrs. William McGuire, of Wilmore, were called here the first of the week by the serious illness of their sister, Mrs. Clifton Weaver, whose condition is thought to be slightly improved.

WHITLOCK

Mr. and Mrs. Wm. Burgess, of College Hill, spent the week end with his daughter, Mrs. Laura Carnes.

Mr. John Young, of Newby, celebrated his 78th birthday last Friday with many of his friends and relatives present.

The members of the Antioch church will do some quilting for the bazaar Thursday, the 27th, at Mrs. J. A. Young's in Richmond.

Mrs. James Still, who is very ill, is slowly improving.

The many friends and relatives of Mrs. John Heathman gave her a surprise dinner on the 24th in honor of her 24th birthday. 50 people enjoyed the many goodies to eat and all spent the day very pleasantly. Many nice presents were given to her by friends.

Mr. Chester Jones and wife and mother spent Sunday with Mr. and Mrs. Tom Jones.

The revival meeting at Bethel, conducted by Bro. Warner, of Irvine, came to a close Sunday.

Mr. John Durham went to Big Hill Saturday to see his mother.

Mrs. Freegan Carnes and children spent the past week with her aunt, Mrs. Bill Carnes, in Irvine.

Mrs. Luster Steward and daughter, of Richmond, have been visiting her mother, Mrs. Renice Witt.

Mrs. Dick Burgess, of Cottonburg, has gone to Indianapolis to visit her son and relatives.

TEACHER IS TARGET

Pupils Show Their Disapproval of All Forms of Learning.

Fruits and Vegetables Among Missiles Hurlled at Schoolmarm in New York Village.

Beacon, N. Y.—When boys and girls of this town took to hurling fruit and vegetables at their school teacher as a token of their disapproval of all forms of academic learning the taxpayers gathered in executive session, to vote them into a state of suspension. At the same time, it was learned, the taxpayers voted the school at Myers Corners out of existence.

It was developed in the argument over the closing of the school that the pupils, if not properly acquainted with the location of the River Volga, were on the other hand, possessed of an unbelieveable variety of useless accomplishments with regard to enjoying themselves and making the life of their teacher, Miss Beatrice Ham of Mill brook, miserable.

Not only were they adept in all the recognized forms of class room deviltry, such as stiletting pins in each other, and catapulting wads of paper about by means of rubber bands, but they had the daring to maintain their misbehavior in the face of official disapproval.

According to the discussion as it took place among the taxpayers, nothing that Miss Ham could do had any effect on the members of her school.

It was told how the youngsters had left their trademarks on the walls of the school building, and how they had decorated the pictures of President Harding and of Roosevelt and Wilson, which were hung on the walls of the school to inspire them to high and patriotic thoughts. It seemed, however, that none of the pupils was considering the possibilities of his candidacy for the presidency that term and that each was equipped with a self-starting inspirer.

In one way and another Miss Ham came to be looked upon with ill favor by her pupils and they decided that the best way of showing their little

ROYAL BAKING POWDER COMPANY
128 William Street, New York

How to make it

Use level measurements for all materials.

1/2 cup shortening
1/2 cup sugar
Grated rind of 1/2 orange
1 egg and 1 yolk
2 cups flour
4 teaspoons Royal Baking Powder
1 cup milk
1/2 square (1 1/2 oz.) of unsweetened chocolate (melted)
1 teaspoon salt

Cream shortening. Add sugar and grated orange rind. Add beaten egg yolks. Mix together flour, salt and Royal Baking Powder and add alternately with the milk, beating in each layer egg whites. Beat the batter into two parts. To one part add the chocolate. Turn by tablespoons, alternating dark and light batter, into three greased layer cake pans. Bake in moderate oven 20 minutes.

FILLING AND ICING

1/2 cup unsweetened butter
1/2 cup confectioner's sugar
1 egg white
1/2 square (1 1/2 oz.) of unsweetened chocolate
Grated rind of 1/2 orange and pulp of 1 orange

Put butter, sugar, orange juice and rind into bowl. Cut up egg white, removing skin and seeds, and add. Beat all together until smooth. Fold in beaten egg white. Spread this filling on layer used for top of cake. While filling is set, sprinkle with ground chocolate shavings. In last place with sharp knife (use a serrated). To remaining filling add 1/2 square unsweetened chocolate which has been melted. Spread this thickly between layers and on sides of cake.

ZEEKE ANDERSON TELLS HIS STORY

Escaped From Road Camp To See
Sick Child—Must Now Serve
Term For Escaping

Frankfort, Ky., Oct. 26.—Zeeke Anderson, of Elkhorn City, Pike county, killed a man and was sentenced to serve fifteen years in the Kentucky state reformatory. Now he faces from one to six years additional imprisonment because he decided to take a chance and escape from a road camp in order to see the child.

Anderson escaped from the Rockcastle county road camp last spring. He went home and made a crop, returning to the reformatory on October 25 and giving himself up at the front gate. Anderson killed an Italian miner in Pike county in 1918. He claimed that he was attempting to prevent a fight and that the Italian attacked him with a knife,

cutting a gash in his wrist. His plea at the trial was self-defense. Last spring Anderson was sent to the Rockcastle county road camp where he was entrusted with the task of watching the clothing of the other prisoners. One day he disappeared and the first seen of him by prison officials was when he gave up, although two days before he gave up, Anderson went to R. Monroe Fields, of Whitesburg, prosecutor in the 35th judicial district, and asked him to send the following telegram:

"Zeeke Anderson, escaped convict, convicted from Pike county for manslaughter, is returning to the reformatory voluntarily. Will arrive in next Monday but does not want to be arrested so reward will not have to be paid. (Signed) R. Monroe Fields."

"I have just received a letter from my wife, telling me that my baby, who is four years old, was very sick," said Anderson in telling of his escape. "So I just decided to go home for a while and jumped on a passenger train and went. Nobody noticed men when I got onto the train and I suppose I was at home before they missed me at the camp."

"My baby was awfully sick when I got home and almost died. I found that the family was in bad shape so I decided to stay there and make a crop before returning. I also worked some in the mine of the Federal Coal Company at Elkhorn City."

"I made a good crop this summer always with the intention of returning here when the work of harvesting was done. I didn't want to be brought back, but if any officer of the prison had reached me I would have given up."

"I came to Frankfort twice this summer. The first time I came with an attorney to see Governor

Morrow. The governor was in Ohio at the time and I didn't get to see him. "A month ago I came back again to give up. I brought my children with me. After we got off the train I missed the man who was to have taken my children back home. I had to take them back myself."

Although Anderson loses all of his "good time" commutation for three years and 26 days he was in prison, and will have to serve almost twelve years of his original sentence, besides facing the possibility of being indicted for escaping and being sentenced to one to six years additional, he retained his sense of humor and chuckled over some of his experiences while at large.

Turning to C. M. Green, superintendent of prison road camps, who was sitting in the office of Supt. Bastin, Anderson said:

"I saw Col. Green twice while I was out but he didn't see me. Once he came to Pike county to look for me but I saw him get off the train and a man who knew me and knew what Col. Green was there for warned me to keep out of sight."

"The second time I ate dinner in Frankfort while Col. Green was eating at the same place."

Turning to Superintendent Green the prisoner said: "Do you remember eating dinner in a restaurant near the railroad station here about a month ago?"

Mr. Green said he remembered eating in the place.

"Well, I was sitting in the back of the restaurant," Anderson continued. "You were in the front and I kept my back turned so you wouldn't notice me. The man who was with me was watching you for me and if you had come to the back of the restaurant I would have given up then."

Anderson smiled and chuckled over the escapade.

His fare here grew serious and he ended his talk with the assertion that "cuttin' and shootin' is a bad thing and if I live long enough to get out of this trouble I'll never get in again."

Anderson is 29 years old.

FULL OF SURPRISES

His Nuptial Race Not "for Maidens" but "Previous Winners."

Instead of Getting Widow With One Child, Got Woman With Seven Children and Two Husbands.

New York.—Meyer Mauer's marital life was just one surprise after another.

He told the Supreme court about it when he asked for an annulment of the match and recited the list of unexpected events that came to him after he was duly wed.

When he married Betty Mauer, he said, she represented herself as a widow with one child. Surprise No. 1—Another child came to the home, calling his wife "mammy."

Surprise No. 2—Second child came along later, also child of wife.

"How come?" asked Meyer. "Thought you only had one child."

"Oh, I merely forgot to tell you about this one," said his wife.

Surprise No. 3—Third child, also called sister, comes along to the wife.

Surprise No. 4—Fourth unharmed infant adds itself to house circle.

"How much of a family have I?" asked Meyer.

Surprise No. 5—"There are two more," said the mistress, and the family grew from the one child to seven.

Surprise No. 6—Meyer discovered that Mrs. Mauer had two other living husbands and then he decided to be the Supreme court put an end to his family surprise party.

"It is a case of fraud and misrepresentation," he said in asking annulment. "Here I thought I was getting a widow with one child and I find that I get a woman with seven children and two husbands."

LIKE "4TH" AT HELGOLAND

Continuous Blasting in Dismantling Big German Fortress Sounds Like Celebration.

Helgoland, Germany. Every day is a Fourth of July celebration on this little rocky island. And not a "safe and sane" celebration at that.

At sunrise the 1,000 German workmen who are dismantling the port fortress and naval harbor of Kaiser Wilhelm set off their blast. The bombardment keeps up throughout the day. Charges of TNT make the water in the harbor spout up like geysers in Yellowstone park and the big gun pits on the summit of the rocky cliff give an occasional roar like Vesuvius and belch great clouds of black smoke and pulverized concrete.

For two years more the work of devastation will continue. In 1906, the Kaiser eight years to build the great fortress and harbor which defended the Kiel canal and afforded Germany a navy base close to England. It cost Germany 50,000,000 marks (\$12,500,000). The cost of dismantling, which Germany also must bear in accordance with the terms of the Versailles treaty, will probably be about 4,000,000 gold marks (\$1,000,000).

The reason for the continued good health of some children is simple enough

Especially when you know the facts, some of which are given here

EVERY mother is proud of a healthy, strong youngster that radiates buoyant life and energy. She has reason to be proud, because the child's good health proves her wisdom in the selection of the food she gives her boy or girl.

All mothers should know that growing children require a balanced diet, a diet containing the food elements needed for building and energizing the body.

Grape-Nuts, the rich, nourishing food made from whole wheat flour and malted barley, served with milk or cream, contains the materials the child needs for best growth and development.

Grape-Nuts helps make sound teeth, strong nerves and pure red blood, and for the palate it is as palatable more wholesome or delicious.

Go to your grocer today and get a package of strength-giving Grape-Nuts. Let the children have all they want, with milk, cream or stewed fruit, or make into an appetizing pudding. Grape-Nuts and milk will be relished by every member of the family.

All Interest In The Richmond Daily Register's CONTEST

Centers Around Opportunity Coupons

Ambition has raised men from lowest circumstances to the highest pinnacles of fame. This world would be a mighty poor place to live in, were it not for ambition.

The Daily Register Grand Prize and Subscription Campaign is for the ambitious, the thrifty and for those who are willing to put their spare moments to profitable advantage.

In the past two days we have laid stress upon "The Opportunity Coupons." All interest in this campaign from now until November 1st, centers around these coupons. We realize that for one to take advantage of the five Opportunity Coupons, amounting to 50,000 extra votes, one must have ambition, energy, perseverance, and stick-to-it-iveness. It is a known fact that ambitious people who strive to reach the top of the ladder, while they may not always succeed, do land somewhere along the middle. Those who lack the above mentioned quality never climb higher than the first few rounds.

At the present moment the top of the ladder is the obtaining of five OPPORTUNITY COUPONS. If you try for five you will at least secure one or more of these valuable Coupons. If you try for one only you may not even secure that one.

The advantages of these coupons are numerous:

1—They positively possess the greatest vote value that will be given during the entire campaign.

2—They will positively be withdrawn November 1st.

3—Those obtaining one or more of these Coupons can rest assured they will have a comfortable lead over candidates who enter at a later period.

4—By informing your friends that you have succeeded in securing one or more Coupons, they will know you are out to win and will give you their support.

There are many persons who would like to enter this campaign, but who are a trifle timid or do not fully understand its details. Again we say, all you have to do to enter, is to fill out the Nomination Coupon, appearing elsewhere in this paper, and send the same to the Daily Register. Better still, bring it yourself and talk over the matter with the Campaign Manager, whom you will find ready to assist in any way possible.

The campaign is in its infancy; in fact it has not even started well.

Doubtless you have been keeping in touch with the campaign, reading all the publicity since the opening announcements. You should bear in mind that a campaign of this magnitude requires an abundant amount of detail work, hence our previous efforts have been devoted solely to preliminary preparations.

Now, "Candidates to be," remember there is yet plenty of time for ambition and energy to assert itself; therefore, take advantage of the Opportunity Offer and get an even start while "Opportunity Period" is on.

The campaign will be over in five short weeks, and 2 automobiles, 1 Edison and 1 Victrola, together with a liberal cash commission, will be awarded to those who have shown pluck and ambition and have helped Madison county's enterprising daily.

In conclusion, ask yourself the following questions:

Are the prizes worth making a determined effort to win?

Could you spend your spare moments to better advantage?

Is this not the most liberal offer ever made by a newspaper in this vicinity?

Think!

Better still, bring it yourself and talk over the matter with the Campaign Manager, whom you will find ready to assist in any way possible.

The campaign is in its infancy; in fact it has not even started well. Doubtless you have been keeping in touch with the campaign, reading all the publicity since the opening announcements. You should bear in mind that a campaign of this magnitude requires an abundant amount of detail work, hence our previous efforts have been devoted solely to preliminary preparations.

Now, "Candidates to be," remember there is yet plenty of time for ambition and energy to assert itself; therefore, take advantage of the Opportunity Offer and get an even start while "Opportunity Period" is on.

The campaign will be over in five short weeks, and 2 automobiles, 1 Edison and 1 Victrola, together with a liberal cash commission, will be awarded to those who have shown pluck and ambition and have helped Madison county's enterprising daily.

In conclusion, ask yourself the following questions:

Are the prizes worth making a determined effort to win?

Could you spend your spare moments to better advantage?

Is this not the most liberal offer ever made by a newspaper in this vicinity?

Think!

Land Sales in Casey

Hughes and McCarty, the Stanford real estate hustlers, put another good sale to their credit Saturday, says the Interior Journal. They sold for J. W. Dick, of Liberty, 40 acres of land to W. T. Holder for \$4,300; to Lee Wesley nine acres for \$1,495; to J. H. Womack 17 1-2 acres for \$540; and to Sherman Allen 21 acres for \$640. For Less Combust they sold a house and two acres of land in Liberty to A. D. Wesley for \$2,750. A large crowd attended the sale and bidding was spirited.

Stories of Great Scouts

By Elmo Scott Watson

CAPTAIN SAM BRADY AND HIS FAMOUS LEAP

Capt. Sam Brady was a member of a fighting family which made history on the Pennsylvania border during the Indian war after the Revolution. Captain Brady's greatest exploit took place in Ohio. He had been captured by the Indians and carried to the Sandusky Towns, headquarters for all the Ohio tribes, where the savages prepared to burn him at the stake.

He was stripped, bound to a post and slow fires kindled around him. For the Indians hated him so much that they wished to torture him as long as possible. Brady was a powerful man and he strained at his fetters until they were loosened slightly. Then with a final effort he snapped the last bond, leaped across the barrier of flame and, seizing a squaw, pitched her into the fire.

Before the Indians could recover, from their surprise, the scout escaped from the village and plunged into the woods, badly pursued by hundreds of savages. Finally he came to the Cuyahoga river, near the present site of Kent in Portage county.

At this place the river flowed between steep, rocky banks, 22 feet across from side to side. The scout was trapped. There was no other place for miles up and down the river where he could ford it. The Indians were closing in on him and his only chance of escape was to try to leap across the chasm.

Brady could hear the savages yelling in the woods only a short distance away as he ran back toward them to get a good start. Then turning, he sprang for the brink and putting all his failing strength into a final spurt, he jumped for the opposite cliff. His jump was a little short and he struck the bank a few feet below the edge. The Indians stopped in amazement, then as the scout scrambled up over the edge, they opened fire.

They wounded him in the leg, delaying his flight, and in a short time were on his heels again. He came to a lake and plunged in. Stooping beneath the broad pads of a water lily, he breathed through a hollow reed while the savages hunted in vain on the shores of the lake. They found his bloody trail to the water's edge and, believing that he had drowned rather than he captured again, gave up the chase.

Soon afterward Brady reached Fort Pitt in safety. He had many more thrilling adventures before his death on Christmas day, 1793, but his 22-foot leap across the Cuyahoga was the greatest feat of all.

MORE JERSEY COWS ON REGISTER OF MERIT

(By Associated Press)

Lexington, Ky., Oct. 26—Five more Kentucky Jersey cows have been entered in the Register of Merit of the American Jersey Cattle Club as a result of the records for butterfat which they made during twelve months of official testing just ended, according to an announcement by J. J. Hooper, head of the College of Agriculture, University of Kentucky, dairy department. Seven other cows in the state recently received a similar distinction.

The names of the cows together with their owners and the records they established follow: Interest Iola, W. Hampton & Son, Goshen, 8457 pounds of milk and 428 pounds of butterfat; Interest Nora, W. Hampton & Son, 6,978 pounds of milk and 374 pounds of butterfat; J. B. Princess Lass, J. H. McDaniel, Warsaw, 5,696 pounds of milk and 344 pounds of butterfat; Majesty's Golden Elsie, J. C. Askew, Trenton, 12,028 pounds of milk and 722 pounds of butterfat; Hamley's Plymouth Silver, Perrant Brothers, Dover, 4,818 pounds of milk and 302 pounds of butterfat.

—All persons having claims against the estate of Nancy Holman, deceased, are hereby notified to file the same, properly verified with the undersigned administrator on or before Jan. 1, 1922, or have same barred. Solon Taylor, R. D. 4, Box 128, Richmond, Ky.

BRILLIANT METEOR SEEN IN HEAVENS

Celestial Wanderer Is Seen By Many Flashing Across Sky and Bursting

People who were fortunate enough to be out of doors Tuesday night at about 7:30 had an opportunity to see a meteor of unusual brilliancy. It made its appearance northeast of the zenith and flashed across the sky to the southwest, exploding some 45 degrees above the horizon. A loud report was heard about three minutes later, doubtless the report from the bursting visitor from space. The light cast was perhaps as strong as that of an ordinary street light upon the street below it.

Many wonder where such meteors come from, and what they are. For the benefit of such persons, the following facts are presented: The ball of fire seen was a mass of stone, very largely composed of iron, which had doubtless been traveling around the sun in an orbit of its own existence. Last night its path came too near to ours, and the gravitational drew it to us. When it came into our earth's atmosphere, it was heated by friction until it glowed with a white heat. At last the heat became so intense that the mass exploded, and the fragments, most of them mere dust specks, sank to the earth they became a part of our planet.

When first seen the meteor was probably 70 miles high. It was traveling from 19 to 20 miles per second, so that during its flight it probably travelled 40 miles. It may have been 50 miles above the earth when it exploded.

While its size attracted attention, this meteor was exactly the same thing, except for size, as the many "shooting stars" seen this season of the year.

BAROMETER AFFECTS PEOPLE, SAYS ZINKE

The following from the Cincinnati Post will be of interest to Dr. Zinke's friends at his old home here:

When the barometer falls you should keep in close touch with the undertaker, because if you are suffering from pneumonia or are prone to apopleptic strokes, you are likely to need him.

So says Dr. Stanley Zinke, remaining building, Clinton, who has evolved a new theory that death from these diseases have a direct relation to atmospheric pressure. He is preparing a paper on the subject for publication soon in a medical journal.

"If records had been kept, it would be shown most death from pneumonia, for instance, in all hospitals, have occurred while the barometer is low," he asserted.

"If you will consult the Weather Bureau you will find the barometer was low when the three deaths during the Holy Name parade recently took place.

"When Senator Philander C. Knox died of apoplexy at Washington recently I found on investigation air pressure there was low, just as I had known it would be.

"Have you had the headache lately?" he asked an interrogator on the subject. "No? Then how about your wife?"

"She had a headache Sunday," was the reply.

"That so? Well she got over it about 11 a. m., didn't she?"

He was correct. He said he knew this because the barometer was low Sunday morning and then rose about 11 a. m.

Dr. Zinke then named the days during which this person should have had the headache during the past two weeks. In no case was he correct, however.

Dr. Zinke asserted that he will guarantee to show a marked improvement in almost any case of pneumonia in a few minutes after he begins his treatment.

His principle is to discard the usual method of stimulating the heart of a pneumonia sufferer by drugs and relieve heart pressure by drugs administered with a proper regard for atmospheric pressure, he explained.

Dr. A. C. Bachmeyer, General Hospital Superintendent, said Dr. Zinke's idea is new to him.

"As I never knew of any observations made in this connection, I would not care to express an opinion," he said.

LINCOLN BOOSTERS TO HELP GARRARD POOL

Many farmers and others from this county will go to Lancaster Saturday afternoon to hear Aaron Sapiro speak on the tobacco pool. Says the Stanford Journal. This wonderful man from the Golden Coast, has outlined a method by which it is believed the tobacco growers can get something like a living price for their product, and although he has spoken in several localities, back in Kentucky explaining as no other speaker can, his method of pooling the tobacco crop. Garrard county is not far from the required 75 per cent and it is proposed to have that county go over the top Saturday, if possible. Lincoln county has pooled

a little over 90 per cent of her 1921 crop and her growers, believing they have done the sensible thing, are anxious to see the pool made a certainty. Over 200 of her growers, many of them members of the Lincoln County Farm Bureau, went to Danville court day and spent the day inducing the growers there to join. Their success was marked by a big increase in the growing pool. Now it is proposed to help the Garrard county farmers over, and at 12:30 next Saturday afternoon between 150 and 200 of Lincoln's best tillers of the soil will go in a body to Lancaster and hear Mr. Sapiro and at the same time use the best argument they can command to get the Garrard growers to join the pool. Mr. R. M. Blackerby, secretary of the Lincoln County Farm Bureau, tells this paper that he heard Hon. W.

H. Shanks, of this city, speak at Lancaster last night and that his argument was one of the most convincing he has yet heard. He said our townsman spoke for an hour and a half to a fair crowd and that he never saw such attention given a speaker. Mr. Blackerby thinks he did the cause for which he spoke much good, as there were a number of names added to the "pool list" at the conclusion of his remarks. The indications are that Garrard will follow Lincoln in pledging a big per cent of her tobacco crop.
